Dear Ms. Cupp:

The Division of Air Pollution Control (DAPC) at the Northwest District Office (NWDO) discovered the Socar, Inc. has not been submitting deviation reports as required by Synthetic Minor Permit to Install (PTI) # 03-13855 issued December 5, 2002. As stated in the reporting requirements section of the PTI, the company is required to submit quarterly deviation reports on: (1) any exceedance of the maximum allowable gallon usage rate of coatings, (2) any exceedance of the maximum allowable gallon usage rate of solvents, (3) any exceedance of the 99.54 tons OC per rolling, 12 month period. If no deviations occurred, the company is required to attest to such in the quarterly deviation report. Failure to submit quarterly deviation reports beginning in January 31, 2003, is a violation of the terms and conditions of PTI #03-13855, and ORC 3704.05.

In order to correct these violations, Socar must submit the quarterly deviation reports beginning with January 31, 2003 and ending with October 31, 2006. The fourth quarter deviation report for 2006 is due by January 31, 2007. Our office is requesting that the company submit a letter by February 23, 2007 stating when the past due deviation reports will be submitted. Please be advised that the submission of the requested information to respond to this letter does not constitute waiver of the Ohio EPA's authority to seek civil penalties pursuant to ORC section 3704.06. The Ohio EPA will make a decision on whether to pursue or decline to pursue such penalties regarding this matter at a later date.

Should you have any questions regarding this letter, please feel free to directly contact me at 419-373-3136.

Sincerely,

Jay P. Liebrecht
Division of Air Pollution Control
