Re: **Notice of Violation (High Priority Facility) regarding 2007 Fee Emission Report and request for revised report by September 14, 2007.**

Dear Mr. Pierce:

Carmeuse Lime was contacted via email on May 25, 2007, regarding an error in their 2007 Title V Fee Emission Report (FER). Specifically, the particulate emissions (PE, PM10, and PM2.5) were calculated incorrectly, which resulted in lower annual emission rates. The company was notified that in order to correct the problem, a revised FER would need to be submitted through the Star Ship program. On July 30, 2007, Northwest District Office (NWDO) contacted the company as a reminder of this deficiency. At that time, the company committed to resubmit the report by the following week.

To date, a revised report has not been received by NWDO, which is a violation of the company's Title V permit, Ohio Revised Code (ORC) 3745.11, and Ohio Administrative Code (OAC) rule 3745-78-02.

At this time, NWDO is requesting the company to submit a revised Title V Fee Emission Report through the Star Ship program by **September 14, 2007**.

Please be advised that the submission of information to respond to this letter does not constitute a waiver of Ohio EPA's authority to seek civil penalties pursuant to ORC section 3704.06. The Ohio EPA will make the decision on whether to pursue or decline to pursue such penalties regarding this matter at a later date.

Mr. Lindon Pierce
