Columbus, Ohio 43207-4023

Dear Mr. Holland:

This letter shall serve as follow-up to the inspection conducted on August 8, 2007, of the above referenced facility by this writer. The purpose of this inspection was to determine the compliance status of all air contaminant sources located there.

Under permit to install (PTI) 03-6418 in Additional Special Terms and Conditions, the company has failed to maintain the following record:

The permittee shall keep written records on tons of recycled asphalt used and tons of asphalt produced and shall be kept at this facility and be made available to Ohio EPA representatives upon request.

The above monitoring and recordkeeping violations need to be corrected as expeditiously as possible. We request that the company begin maintaining these records starting September 1, 2007. A copy of these records for the month of September 2007 also is requested. This information should be submitted to this office by no later than October 8, 2007.

The submission of information to respond to this letter does not constitute waiver of Ohio EPA's authority to seek civil penalties pursuant to ORC section 3704.06. The Ohio EPA will make a decision on whether to pursue or decline such penalties regarding this matter at a later date. Should you have any questions and/or comments, feel free to contact this office at the above address or call (419) 373-3112.

Sincerely,

Jon Budge
