RE: Resolution to Notice of Violation issued on December 4, 2007 to M-TEK, Inc.
(0388010052)

Dear Mr. Derr:

This letter shall serve to resolve the Notice of Violation (NOV) issued to the above referenced facility on December 4, 2007. The letter was issued as a result of an inspection that occurred on October 30, 2007. Following a review of the facility's records at the time of the inspection, it was determined that M-Tek, Inc. had failed to properly record coating and cleanup usage in accordance with permit-to-install (PTI) 03-17006, issued April 10, 2007. Additionally, quarterly deviation reports required by the PTI were not submitted.

Prior to receiving the inspection letter, M-Tek, Inc. began working to correct the noted violations. Prior to my arrival, the company recognized that they had failed to submit the quarterly deviation reports and provided me with them. In addition, they submitted a revised recordkeeping log for review November 9, 2007 that were reviewed and determined to be acceptable. Finally, the permit to operate resubmittal that was requested has been delayed. It is believed that there was a problem with the data upload from STARShip so the issue is being corrected by Ohio EPA's Central Office.

At this time, the matters outlined in the December 4, 2007, letter are resolved and require no further action.

Should you have any questions or comments concerning this letter, please feel free to contact me at the above referenced address or call (419) 373-4112.

Sincerely,

Jennifer L. Jolliff
Division of Air Pollution Control
