Mr. Tom Halfhill
Gallia County
Maintenance Supervisor
18 Locust Street
Gallipolis, Ohio 45631

Dear Mr. Halfhill:

On June 21, 2012, Ohio EPA received a complaint alleging that the county maintenance staff had replaced the fluorescent bulbs in the animal shelter and placed them into the solid waste dumpster. On June 27, 2012, Melody Stewart and I performed a complaint investigation to determine the validity of the complaint and to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

During the investigation, we found that approximately 20 spent bulbs were in the dumpster, see attached photographs. Paul Simmers had placed a drum near the dumpster so that the bulbs could be pulled out and stored until appropriate containers can be used. No documentation of proper waste determination was available; therefore, Gallia County is in violation of the following hazardous waste regulation:

- (1) OAC rule 3745-52-11, Hazardous waste determination:** Any person who generates a waste, as defined in rule 3745-51-02 of the Administrative Code, must determine if that waste is a hazardous waste by following rules 3745-51-30 to 3745-51-35, and then determine whether the waste is identified in rules 3745-51-20 to 3745-51-24 of the Administrative Code by either: (1) Testing the waste according to the methods set forth in rules 3745-51-20 to 3745-51-24 of the Administrative Code, or according to an equivalent method approved by the Region V Administrator of U.S. EPA pursuant to 40 CFR 260.21; or (2) Applying knowledge of the hazardous characteristic of the waste in light of the materials or the processes used.

At the time of the inspection, spent lamps were being disposed as solid waste without first being evaluated to determine whether they are hazardous wastes. Please see the attached factsheet regarding hazardous waste determination and the management of universal wastes (spent fluorescent lamps). If the lamps will be collected and managed as universal waste, this regulation will be satisfied for the lamps. To demonstrate compliance, please provide photographs of the lamps in properly-labeled universal waste containers and the name of the company that will be used to collect/recycle them, or provide documentation indicating that proper

waste evaluation has been performed. Also provide a copy of a memorandum or policy which specifies how lamps are to be managed from now on at all county-owned facilities.

You need to immediately take the necessary measures to return to compliance with Ohio's environmental laws. **Within 21 days** of receipt of this letter, you are requested to provide documentation to this office including the steps taken to abate the violations cited above. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to rich.stewart@epa.ohio.gov.

Please be advised that violations cited above will continue until the violations have been properly abated. Failure to comply with Chapter 3734. of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, you are requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.

If you have any questions, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
