Re: Notice of Violation  
Auglaize County  
Arrowhead Estates Subdivision  
K/Z Sewer District  
Sherwood Forest Subdivision  
Uniopolis WWTP  
NPDES Permits

June 9, 2011

Mr. Douglas P. Reinhart  
Auglaize County Engineer  
P. O. Box 59  
Wapakoneta, Ohio 45895

Dear Mr. Reinhart:

We are in receipt of your self-monitoring reports covering the months of January through March 2011, for the above referenced facilities. Our review indicates violations of the conditions of those NPDES permits. The specific instances of noncompliance are attached on separate sheets. Further review of your self-monitoring reports for the previous six months, ending in March 2011, for K/Z Sewer District and Sherwood Forest Subdivision, indicates that you are in significant non-compliance (SNC) with an effluent limitation contained in those NPDES permits. The specific instances of SNC are attached on separate sheets.

Please inform this office in writing as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction).

Mr. Douglas P. Reinhart  
June 9, 2011  
Page 2

For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact me at (419) 373-3022.

Sincerely,

Justin A. Williams  
Division of Surface Water
