RE: AJAX TOCCO MAGNETHERMIC
3GR00863*AG
STORMWATER
TRUMBULL COUNTY

Mr. Gregg Richley
Ajax TOCCO Magnethermic
1745 Overland Avenue, NE
Warren, Ohio 44483

Dear Mr. Gillen:

On August 2, 2010 this writer conducted an inspection of your facility, located at 1745 Overland Avenue in Warren, Ohio to determine compliance with your Industrial Storm Water NPDES General permit referenced above. The following observations were made:

General:

1. Ajax TOCCO Magnethermic is a manufacturing company specializing in the production of melting and heating machinery for the steel and iron industries.
2. Runoff on the site flows through several catch basins to outfall 001 which is pumped to the Warren Waste Water Treatment Plant. This water is sampled yearly.

Inspection Observations:

1. There were pieces of scrap metal on the ground around the site. Use Good Housekeeping practices to maintain the property.
2. There were several hoppers used to store various types of metal chips. These hoppers should be covered with a permanent or temporary cover to prevent storm water contamination.

Permit:

1. As required in Part IV of your permit, a Storm Water Pollution Prevention Plan (SWPPP or SWP3) needs to be created for your site. The following link to the USEPA Web site provides guidance on preparing a SWPPP.
http://www.epa.gov/npdes/pubs/industrial_swppp_guide.pdf
2. The plan should contain a site map that shows the full site including contours of the site, direction of flow for storm water, the location of outfalls, location of possible contaminations to storm water, location of all surface water bodies, and any BMPs that are currently in place.

Page 2

3. The plan should contain specific storm water annual training dates and verification that training was conducted with the employees.
4. The following link to the USEPA Web site contains information pertaining to different sectors covered under the General Industrial permit. The Web site has links to resources for you to use to keep your site in compliance with your NPDES permit.

<http://cfpub.epa.gov/npdes/stormwater/swsectors.cfm>

Action Items:

- Create an SWPPP.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1125 or by e-mail lindsey.olmstead@epa.state.oh.us.

Sincerely,
