RE: DARLING INTERNATIONAL INC
3GR01223*DG
INDUSTRIAL STORMWATER
CUYAHOGA COUNTY

Mr. Josh Otto
Operations Manager
Darling International Inc
1002 Beltline Ave
Cleveland, OH 44118

Dear Mr. Otto:

On August 2, 2010 this writer conducted an inspection of your facility, located at 3751 Jennings Road in Cleveland, to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Along with my observations from the inspection, I have provided comments concerning your Stormwater Pollution Prevention Plan (SWPPP) below:

General:

1. This site is a grease recycling and animal byproduct transfer operation that converts used food grease into useful fats oils and animal feed additives.

Inspection Observations:

1. The waste oil tank needs to be labeled 'Used Oil' and the plug/valve for the containment vessel around the tank had been removed. As a result of the plug/valve being removed the area around the tank has been stained with oil. The plug/valve needs to be replaced and the area around the tank needs to be cleaned.

Action Items

- Clean up the area around the used oil tank and replace plug/valve on containment vessel.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 487-1708 or by e-mail david.rischar@epa.state.oh.us.

Sincerely,

David Rischar
Assistant to the District Engineer
Division of Surface Water
