RE: DUNAWAY INC  
3GR01231\*DG  
STORMWATER  
MAHONING COUNTY

Mr. Michael Dunaway  
Dunaway Inc.  
5959 Leffingwell Rd.  
P.O. Box 488  
Canfield, Ohio 44406

Dear Mr. Dunaway:

On June 21, 2010 this writer conducted an inspection of your facility, located at 5959 Leffingwell Road in Canfield, Ohio to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Along with my observations from the inspection I have provided comments concerning your Storm Water NPDES permit below:

General:

1. This site is the location of Dunaway Inc, a company specializing in the design, building and upgrading of extrusion machinery.

Inspection Observations:

1. Drainage on the site was unknown and should be determined immediately.
2. Scrap metal was being stored on the ground behind the building. This should be moved inside or under a cover to prevent contact with precipitation.
3. The trash and metal hoppers should be covered with a permanent or temporary cover.

Permit:

1. A Storm Water Pollution Prevention Plan (SWPPP or SWP3) needs to be created for your Storm Water NPDES permit. The following link to the USEPA Web site provides guidance on preparing a SWPPP.  
[http://www.epa.gov/npdes/pubs/industrial\\_swppp\\_guide.pdf](http://www.epa.gov/npdes/pubs/industrial_swppp_guide.pdf)
2. The plan should contain a site map that shows the full site including contours of the site, direction of flow for storm water, the location of outflows, location of possible contaminations to storm water, location of all surface water bodies, and any BMPs that are currently in place.

Mr. Michael Dunaway  
Dunaway Inc.

Page 2

3. The plan should contain specific storm water annual training dates and verification that training was conducted with the employees.
4. The following link to the USEPA Web site contains information pertaining to different sectors covered under the General Industrial permit. The web site has links to resources for you to use to keep your site in compliance with your NPDES permit.

Action Items

- Store scrap metal and machine parts inside or cover with a tarp.
- Cover metal and trash hoppers with a permanent or temporary cover.
- Create an SWPPP.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1125 or by email [lindsey.olmstead@epa.state.oh.us](mailto:lindsey.olmstead@epa.state.oh.us).

Sincerely,

Lindsey A. Olmstead  
Assistant to the District Engineer  
Division of Surface Water
