RE: FOMO PRODUCTS INC
3GR01202*DG
STORMWATER
SUMMIT COUNTY

Mr. Kerry W. Armes
Operations Manager
PO Box 1078
Norton, Ohio 44203

Dear Mr. Armes:

On June 8, 2010 this writer conducted an inspection of your facility, located at 2775 Barber Road, Summit County to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Besides you, in attendance were Chad Jasiunas and Karl Burkart, Fomo Products Inc. Below you will find a summary of the inspection:

General:

Fomo Products Inc. is a manufacturer of Polyurethane spray foam products. Your facility does not manufacture the chemicals which make up the foam, but only blend and fill into pressurized containers. The facility is served by the City of Barberton for water and sewer. There was a small package plant treating sanitary sewage. It was abandoned in 2006.

Inspection Observations:

- 1) There are no inside floor drains connected to the storm sewers.
- 2) The 40 yard dumpster should have a cover. Waste foam product and various trash from the building is stored in this container. This is solid waste. Please be advised that rainwater coming into contact with solid waste is considered leachate. Unless the container is leak proof, the possibility exists that the leachate will discharge onto the ground and become part of the stormwater runoff. This would be an unpermitted discharge and a violation of your general stormwater permit.
- 3) A picture is attached for reference.

Mr. Kerry W. Armes
Fomo Products Inc.

Permit:

- 1) The SWPPP could not be located during the inspection. It is understood that your consultant, August Mack, may have the plan and is visiting your site on June 9, 2010. If the plan does exist, please forward a copy of it to this office as soon as possible.

Action Items

- 1) Cover and seal the 40 yard dumpster on site.
- 2) If the SWPPP does not exist or needs to be updated, submit it to this office for review no later than August 31, 2010.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1136 or by email phil.rhodes@epa.state.oh.us.

Sincerely,

Philip P. Rhodes
