RE: PPG PRETREATMENT &
SPECIALTY PROD
3GR00354*DG
STORMWATER
CUYAHOGA COUNTY

Ms. Melinda Skinner
EHS Specialist
PPG Industries of Ohio, Inc.
23000 St. Clair Ave
Euclid, OH 44117

Dear Ms. Skinner:

On June 15, 2011 this writer conducted an inspection of your facility, located at 23000 St. Clair Ave, Euclid, Ohio to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Along with my observations from the inspection I have provided comments concerning your permit below:

General:

1. This site is the location of PPG Pretreatment & Specialty Products, which manufactures pretreatment chemicals for industrial manufacturing customers.
2. All water from indoor activities goes to a holding tank and is then sent out for disposal.
3. All storm drains in docking areas are equipped with valves and any retained water in the dikes is tested before releasing.

Permit:

1. Based on the map in the Storm Water Pollution Prevention Plan (SWPPP), there was a storm line which extended towards the back of the facility. It seemed to be unclear as to where this line actually went. Look into this issue and update or add clarification to the map accordingly.

Action Items

- Research storm lines to update or clarify map.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1125 or by email kelly.mcvay@epa.ohio.gov.

Sincerely,

Kelly A. McVay
Assistant to the District Engineer
Division of Surface Water
