Dear Mr. Elco:

On September 23, 2010, Ohio EPA attempted to conduct an inspection of Sharon Center Mold & Die, located at 1440 Wolf Creek Trail, Village of Sharon Center, Medina County (site). Ohio EPA records indicate that the site is covered by General National Pollutant Discharge Elimination System Permit for Storm Water Associated with Industrial Activity (General Storm Water Permit), permit No. 3GR00694*DG.

The inspection documented that the site does not appear to be in business as Robert Dambra, President of Arc Start International (ASI), stated that ASI purchased the building July 1, 2010. Part II.F of the General Storm Water Permit requires that "where all storm water discharges associated with industrial activity that are authorized by this permit are eliminated, the operator of the facility must submit an [Notice of Termination] NOT form provided by Ohio EPA that is signed in accordance with paragraph G of Part VII of this [General Storm Water] permit." For your convenience, the NOT can be located from the following Web site:

<http://www.epa.ohio.gov/dsw/storm/stormform.aspx>

If the site satisfies Part II.F of the General Storm Water Permit, an NOT must be completed in accordance with the NOT instructions and submitted to Ohio EPA at the following address:

For your convenience, the NOT instructions can be located at the above Web site. In the event that the site is still in operation, please submit written correspondence stating that the site is to remain authorized by General Storm Water Permit. Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1118 or via e-mail at chris.moody@epa.state.oh.us.

Sincerely,
