Industrial Storm Water Inspection

Mr. Joe Traylinek
Viking Worthington Steel Enterprise LLC
804 Steel Drive
Valley City, OH 44280

Dear Mr. Traylinek:

On September 22, 2010, Ohio EPA attempted to conduct an inspection of the Viking Worthington Steel Enterprise LLC, located at 804 Steel Drive, Valley City, Medina County (site). Ohio EPA records indicate that the site is covered by General National Pollutant Discharge Elimination System Permit for Storm Water Associated with Industrial Activity (General Storm Water Permit), permit No. 3GR00051*DG.

The inspection documented that the site does not appear to be in business as signage was posted with notification that the property was for sale. Part II.F of the General Storm Water Permit requires that "where all storm water discharges associated with industrial activity that are authorized by this permit are eliminated, the operator of the facility must submit an [Notice of Termination] NOT form provided by Ohio EPA that is signed in accordance with paragraph G of Part VII of this [General Storm Water] permit." For your convenience, the NOT can be located from the following Web site:

<http://www.epa.ohio.gov/dsw/storm/stormform.aspx>

If the site satisfies Part II.F of the General Storm Water Permit, an NOT must be completed in accordance with the NOT instructions and submitted to Ohio EPA at the following address:

Ohio Environmental Protection Agency
Division of Surface Water
General Permit Program-NOT
P.O. Box 1049
Columbus, Ohio 43216-1049

For your convenience, the NOT instructions can be located at the above Web site. In the event that the site is still in operation, please submit written correspondence stating that the site is to remain authorized by General Storm Water Permit. Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1118 or via e-mail at chris.moody@epa.state.oh.us.

Sincerely,

Chris Moody
