RE: WASTEQUIP
3GR00716*DG
STORMWATER
HOLMES COUNTY

Mrs. Martha Rhees
Inside Sales Coordinator
Wastequip
930 Massillon Road
Millersburg, Ohio 44654

Dear Mrs. Rhees:

On July 7, 2010, this writer conducted an inspection of your facility located at 930 Massillon Road in Millersburg, Ohio to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Along with my observations from the inspection, I have provided comments concerning your permit below:

General:

1. Wastequip is a manufacturing company specializing in steel storage containers for waste material and recyclables.
2. Drainage on the site is directed to a ditch along the side of the property.

Inspection Observations:

1. During my inspection, the main area of concern was general maintenance and trash clean up. There were pieces of scrap steel on the ground throughout the site. This should be swept up regularly.
2. There were several oil barrels being stored outside. It is advised that all barrels, whether they contain product or waste material, be stored inside. If they must be stored outside, then it should be on an impervious bermed pad and under roof.

Permit:

1. As required in Part IV of your permit, a Storm Water Pollution Prevention Plan (SWPPP or SWP3) needs to be created for your site. The following link to the USEPA website provides guidance on preparing a SWPPP.

http://www.epa.gov/npdes/pubs/industrial_swppp_guide.pdf

PAGE 2

2. The plan should contain a site map that shows the full site including contours of the site, direction of flow for storm water, the location of outfalls, location of possible contaminations to storm water, location of all surface water bodies, and any BMPs that are currently in place.
3. The plan should contain specific storm water annual training dates and verification that training was conducted with the employees.
4. The following link to the USEPA website contains information pertaining to different sectors covered under the General Industrial permit. The website has links to resources for you to use to keep your site in compliance with your NPDES permit.

Action Items

- Create an SWPPP and submit it to this office no later than September 1, 2010.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1125 or by e-mail lindsey.olmstead@epa.state.oh.us.

Sincerely,

Lindsey A. Olmstead
Assistant to the District Engineer
Division of Surface Water
