Re: Notice of Violation  
Auglaize County  
Beverly Hills Subdivision  
Forest Lane Subdivision  
New Knoxville WWTP  
~~Uniopolis WWTP~~  
NPDES Permits

December 2, 2010

Mr. Douglas P. Reinhart  
Auglaize County Engineer  
P. O. Box 59  
Wapakoneta, Ohio 45895

Dear Mr. Reinhart:

We are in receipt of your self-monitoring reports covering the months of July through September 2010, for the above referenced facilities. Our review indicates violations of the conditions of those NPDES permits. The specific instances of noncompliance are attached on separate sheets. Further review of your self-monitoring reports for the previous six months, ending in September 2010, for Beverly Hills Subdivision, indicates that you are in significant non-compliance (SNC) with an effluent limitation contained in your NPDES permit. The specific instance of SNC is attached on separate a sheet.

Please inform this office in writing as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Mr. Douglas P. Reinhart

You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact me at (419) 373-3022.

Sincerely,

  
Justin A. Williams  
Division of Surface Water
