RE: D & V TRUCKING, INC
3GR01217*DG
STORMWATER
MAHONING COUNTY

Mr. Jim Evans
D & V Trucking, Inc
12803 Columbiana-Canfield Rd
Columbiana, Ohio 44408

Dear Mr. Evans:

On June 21, 2010 this writer conducted an inspection of your facility, located at 12803 Columbiana-Canfield Road in Columbiana, Ohio to determine compliance with your Industrial General Storm Water NPDES permit referenced above. Along with my observations from the inspection I have provided comments concerning your Storm Water NPDES permit below:

General:

1. This site is the location of D & V Trucking, Inc, a local and extended travel transportation company.
2. Drainage on the site is directed to two outfalls. These outfalls empty into a roadside ditch along Columbiana-Canfield Road.

Inspection Observations:

1. Empty drums were stored outside. These should be moved inside if possible or placed in secondary containment with a permanent or temporary cover over them.
2. There were several scrap pieces of metal on the ground throughout the site. These should be cleaned up and disposed of.
3. Periodic monitoring should be conducted at this site. The catch basins should be checked for an oil sheen and sediment. Records of these inspections should be kept as an appendix in the SWPPP.

Permit:

1. A Storm Water Pollution Prevention Plan (SWPPP or SWP3) needs to be created for your Storm Water NPDES permit. The following link to the USEPA Web site provides guidance on preparing a SWPPP.

http://www.epa.gov/npdes/pubs/industrial_swppp_guide.pdf

Page 2

2. The plan should contain a site map that shows the full site including contours of the site, direction of flow for storm water, the location of outflows, location of possible contaminations to storm water, location of all surface water bodies, and any BMPs that are currently in place.
3. The plan should contain specific storm water annual training dates and verification that training was conducted with the employees.
4. The following link to the USEPA Web site contains information pertaining to different sectors covered under the General Industrial permit. The web site has links to resources for you to use to keep your site in compliance with your NPDES permit.

Action Items

- Move empty drums inside.
- Clean up scrap metal pieces.
- Conduct periodic monitoring.
- Create an SWPPP.

If you should have any questions concerning this letter, feel free to contact this writer at (330) 963-1125 or by email lindsey.olmstead@epa.state.oh.us.

Sincerely,

Lindsey A. Olmstead
Assistant to the District Engineer
Division of Surface Water
