Dear Mr. Kerr:

On September 28, 2007, this writer conducted an inspection of your facility for the purpose of determining compliance with National Pollutant Discharge Elimination System (NPDES) permit 3IN00322*BD. At the time of the inspection it had not recently rained therefore there was no discharge. The receiving stream downstream of the discharge from the oil/water separator was clear with no visible oil sheen. A picture of the outfall is attached. A review of your compliance history as indicated by our computer tracking system indicates the following violations for the time period of May 2006 through August 2007:
