**RE: GENERAL DIE CASTERS  
3IN00136\*FD  
SUMMIT COUNTY**

Matt Burch, Facility Manager  
General Die Casters  
6212 Akron-Peninsula Road  
Peninsula, Ohio 44264

Dear Mr. Burch:

It has come to our attention that your facility has missed a compliance milestone outlined in Part 1, C of your NPDES permit. It is as follows:

**E. coli Monitoring and Limits**

1. The permittee shall evaluate the ability of its existing treatment facilities to meet the final effluent limit for E. coli at outfall 3IN00136001.
2. Within 6 months from the effective date of this permit, the permittee shall submit to the Ohio EPA Northeast District Office a brief status report on the ability of its existing treatment facilities to meet the final effluent limit for E. coli.

You were to evaluate the ability of your system to meet the E. Coli limit and submit the report no later than December 1, 2010. We request that you respond in writing no later than January 7, 2011, with your intentions to resolve this matter.

If you should have any questions concerning this letter, please feel free to contact this writer at (330) 963-1136 or by e-mail at: [phil.rhodes@epa.state.oh.us](mailto:phil.rhodes@epa.state.oh.us).

Sincerely,

Philip P. Rhodes, P.E.  
Environmental Specialist II  
Division of Surface Water
