Re: Erie County  
Kyklos Bearing International  
NPDES Permit

March 23, 2010

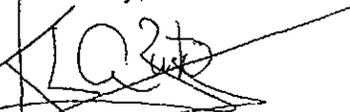

Mr. James Guerra, Sr. Environmental Engineer  
Kyklos Bearing International  
2509 Hayes Avenue  
Sandusky, Ohio 44870

Dear Mr. Guerra:

On March 2, 2010, a visit was made to Delphi prior to beginning the renewal of your NPDES permit, which expires April 30th. We reviewed your renewal application, facility operations, and inspected the storm water ponds. Operations have remained the same. Discharge consists of non-contact cooling and storm water. Both storm water sedimentation ponds were dredged and cleaned in 2007, and the diversion dam was rehabilitated. Efforts are ongoing to improve the efficiency of the cooling towers through better monitoring and maintenance which increases the intervals of discharges. A review of NPDES discharge monitoring reports for the current permit cycle indicates one minor violation in 2007.

You will be receiving a draft copy of the renewal in the near future. Please review it carefully, as you will have 30 days in which to comment. Please continue to operate under the current permit until the renewal becomes effective. If you have any questions, please call me at (419) 373-3020, or email at [rick.zuzik@epa.state.oh.us](mailto:rick.zuzik@epa.state.oh.us)

Sincerely,

Richard A. Zuzik, MSE  
Division of Surface Water
