RE: SUNOCO LOGISTICS  
AKRON TERMINAL  
SUMMIT COUNTY  
PERMIT NO. 3IG00010

Mr. Robert W. Falconbery Jr.  
Sunoco Logistics Akron Terminal  
Assistant Terminal Manager  
999 Home Avenue  
Akron, OH 44310

Dear Mr. Falconbery:

On April 22, 2008, an inspection of the above referenced facility's wastewater treatment system was conducted. The facility was represented by Mr. Frank Necina, Terminal Operator and Ms. Vicki Hedrick, Terminal Operator. The purpose of the inspection was to evaluate the operation and maintenance of the treatment plant along with the facility's compliance status with respect to the terms and conditions of the above referenced National Pollutant Discharge Elimination System (NPDES) permit.

During the inspection, the following items were noted/discussed:

1. All gasoline and fuel oil is piped into the bulk terminal.
2. Ethanol, diesel additives, and gasoline additives are trucked to the facility.
3. The facility consists of following:
  - a. Four loading racks; two gasoline and two diesel,
  - b. One ethanol off loading pad, and
  - c. One trans mix pad.
4. The storm water is treated by an 8,000 gallon oil/water separator.
5. The oil/water separator is stick tested daily to determine if there has been an unreported spill. The stick test is performed by a terminal operator Monday through Friday.
6. The dikes were empty and there was no discharge from outfall 3IG00010001
7. Samples are collected by both Mr. Necina and Ms. Hedrick and placed in the refrigerator until picked up by the laboratory.
8. North Coast labs picks up the samples and performs the analytical analysis. All sample bottles should be iced down during transport.
9. Mr. Necina was informed that a Web-based application for submitting the monthly operating report is currently available. Web addresses are available below which provide information on this topic along with training dates.

Mr. Robert W. Falconbery Jr.  
Sunoco Logistics Akron Terminal

This office has recently reviewed your self-monitoring reports covering the period October 1, 2006, through March 31, 2008, for the referenced facility. Our review indicates violations of the terms and conditions of your NPDES permit. The specific instances of noncompliance are as follows:

### FREQUENCY VIOLATIONS

Violation Date	Station	Reporting Code	Parameter	Sample Frequency	Expected	Reported
6/1/2007	001	01094	Zinc, Total Recoverable	1/Quarter	1	0

No limit violations were noted.

Please note that Ohio EPA has converted from the existing **SWIMware** software to a Web-based reporting system, **e-DMR**. The new reporting system is entirely Web based and accessible via any Internet connection. Ohio EPA Form 4500, commonly known as MORs, will now be called Discharge Monitoring Reports (DMRs or e-DMRs). User training is going to be available in May and October of this year. Please consult the following Web site for updates regarding the specific date:

<http://www.epa.state.oh.us/dsw/swims/eDMR/eDMRtraining.html>

If you need additional information pertaining to the SWIMware replacement e-DMR, consult the following Web site.

<http://www.epa.state.oh.us/dsw/swims/eDMR/eDMR.html>

Please be advised that such instances of noncompliance may be cause for enforcement actions pursuant to the Ohio Revised Code, Chapter 6111.

Should you have any comments or questions concerning this letter, please feel free to call me at (330) 963-1143.

Respectfully,

Michael W. Stevens  
Environmental Engineer  
Division of Surface Water
