Dear Mr. Udelson:

It has been brought to the Ohio Environmental Protection Agency's (Ohio EPA) attention that you (Bernard Udelson) are no longer operating the Registered Class III Compost Facility (Ohio EPA ID # 67-C3R-0015) Lucky Sand & Gravel situated on Frost Road in Mantua, Ohio. Ohio EPA records indicate that a registration application was received by Ohio EPA on October 9, 1992, and an Acknowledgement of Registration was issued to Lucky Sand & Gravel Co. on October 27, 1992.

Amendments to your existing registration are required to be submitted to Ohio EPA. **Ohio Administrative Code (OAC) 3745-560-300(F)** states;

"The registrant shall ensure that changes to the composting facility are in compliance with applicable regulations and all information contained on the plan view drawing and registration application is current by submitting an amended registration application as follows:

(1) An amendment to an existing registration is required for changes in the information on the registration application, which may include but is not limited to, facility name, registrant, and contact information including the operator and property owner.

(2) An amendment to an existing registration involving any proposed change to the materials placement area shall include a revised plan view drawing submitted prior to implementation of any change. The plan view drawing shall include the information required in this rule. Any change to the materials placement area requires written concurrence from Ohio EPA acknowledging compliance with this chapter. If the amendment to the existing registration does not involve any proposed changes to the existing registration's plan drawing, the amendment may reference the existing registration's plan drawing."
