RE: Notice of Violation  
Fulton County  
Pleasant View Subdivision  
Ohio EPA Permit No. 2PG00109  
NPDES Permit No. OH0122424  
and  
Airport Industrial Park  
Ohio EPA Permit No. 2PG00110  
NPDES Permit No. OH0122432

December 10, 2007

Mr. Leon L. Smith  
Plant Operator  
28 Willow Way  
Archbold, OH 43502

Dear Mr. Smith:

We are in receipt of your self-monitoring reports covering the months of July 2007 through September 2007 for the referenced facilities. Our review indicates violations of the conditions of the NPDES permits. The specific instances of noncompliance are attached on separate sheets. Further review of your self-monitoring reports for the previous six months, ending in September 2007, for Airport Industrial Park indicates that you are in significant non-compliance (SNC) with an effluent limitation contained in your NPDES permit. The specific instance of SNC is attached on a separate sheet.

We have received your letters dated August 1, 2007, September 11, 2007, and October 3, 2007 for Pleasant View Subdivision and August 1, 2007 for Airport Industrial Park. No further response is needed regarding those violations.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can

## Facilities in Significant Non-Compliance \*\*

Period: Apr-07 Sep-07

County	Permit #	Facility Name	Major	Station Code	Param Code	Parameter Name	Max % Exceed	# Months Signif Exceed (1)**	# Months Exceed (2)**
Fulton	2PG00110	Airport Industrial Park		1	31616	Fecal Coliform	1900	2	2

### Footnotes

#### for Significant NonCompliance

\*\* Significant non-compliance with effluent limits occurred if one or more pollutants met the following conditions:

1. During 2 or more months, the reported effluent concentration (or computed load) for a parameter exceeded an effluent limit by:

- 40% for Group 1 pollutants **plus Fecal Coliform**
- 20% for Group 2 pollutants **plus pH, Temperature, whole effluent toxicity**

-- or --

2. During 4 or more months, the reported concentration (or computed load) exceeded the limit by > 1%.

Note: This method differs from USEPA Significant Non-compliance (SNC) method in the following ways:

- USEPA only evaluates SNC for average limits. In above analyses, maximum and weekly limits were also considered.
