Re: **Notice of Violation**
Fulton County
Village of Delta WWTP
Ohio EPA Permit No 2PB00003*KD

October 26, 2007

Mr. Ken Knuth, Administrator
Village of Delta
401 Main St.
Delta, Ohio 43515

Dear Mr. Knuth:

The following item is required by the National Pollutant Discharge Elimination System (NPDES) permit issued to the Village of Delta Wastewater Treatment Plant:

1) Part I, C (2)(A) of the NPDES permit requires that the permittee submit within 3 months of the effective date of this permit, Sludge Site Authorization Packet for Land Application of Non-EQ Sludge for approval of additional land application sites.

As of this date, this requirement has not been met. To date, NWDO received one complete application for a field which had high phosphorus levels and was not able to be authorized for the land application of sludge. NWDO also received four partially completed site authorization applications. In order to finish our review of these applications, please submit the completed soil test results for the fields owned by Mr. Bill Krauss and Mr. Virgil Bixler. Also please submit a completed site authorization packet and soil test results for the fields owned by Mr. Rick Wagner.

Please be advised that failure to comply with the requirements of the NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

Please submit the requested information to this office within 14 days of receipt of this letter addressing these deficiencies and your plan to satisfy the conditions of your permit. If there are any questions, please feel free to contact Mr. Andrew Gall at 419-373-3003 or via email at andrew.gall@epa.state.oh.us.

Sincerely,

Elizabeth A. Wick, P.E.
