Re: Notice of Violation
Fulton County
Delta WWTP
Ohio EPA Permit No. 2PB00003
NPDES Permit No. OH0020974
and
Delta WTP
Ohio EPA Permit No. 2IW00070
NPDES Permit No. OH0041823

December 7, 2007

Mr. Larry Born
WWTP & WTP Superintendent
Village of Delta
401 Main Street
Delta, Ohio 43515

Dear Mr. Born:

We are in receipt of your self-monitoring reports covering the months of July 2007, through September 2007, for the Delta WWTP. Our review indicates a violation of the conditions of your NPDES permit. The specific instances of noncompliance are attached on a separate sheet. Further review of your self-monitoring reports for the previous six months, ending in September 2007, for both the Delta WWTP and WTP indicates that you are in significant non-compliance (SNC) with several effluent limitations contained in your NPDES permits. The specific instances of SNC are attached on separate sheets.

Please inform this office in writing as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

Mr. Larry Born

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614)644-3469.

If there are any questions, please contact me at (419) 373-3022.

Sincerely,

Justin A. Williams
