Re: Notice of Violation
Fulton County
Metamora WTP
Ohio EPA Permit No. 2IW00033
NPDES Permit No. OH0111392
And
Metamora WWTP
Ohio EPA Permit No. 2PB00065
NPDES Permit No. OH0058408

February 26, 2008

Mr. Rick Meiring
WWTP/WTP Superintendent
Village of Metamora
P. O. Box 299
Metamora, Ohio 43540

Dear Mr. Meiring:

We are in receipt of your self-monitoring reports covering the month of October 2007, for the referenced facilities. Our review indicates violations of the conditions of your NPDES permit for the Metamora WTP. The specific instances of noncompliance are attached on a separate sheet.

This letter also serves as notice that we have not received your November 2007, or December 2007, self-monitoring reports for both the Metamora WWTP and WTP. As a reminder hard copy self-monitoring report submissions are due on the 15th day of the following month and electronic submissions are due on the 20th day of the following month. Submit your missing reports **within 10 days** of the date of this letter.

Please inform this office in writing as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

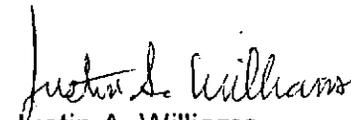

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

Mr. Rick Meiring

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact me at (419) 373-3022.

Sincerely,

Justin A. Williams
