Re: Notice of Violation
Fulton County
Worthington Steel Company
Ohio EPA Permit No. 2ID00014
NPDES Permit No. OH0122271

November 14, 2008

Ms. Elaine Veth, Environmental Specialist
Worthington Steel Company
6303 County Road 10
Delta, Ohio 43515

Dear Ms. Veth:

We are in receipt of your self-monitoring report covering the months of April 2008, through September 2008, for the above referenced facility. Our review indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are attached on a separate sheet.

We have received your letters explaining these violations and require no further information at this time.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "Facility Pollution Prevention Guide" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

Ms. Elaine Veth, Environmental Specialist
