Re: Notice of Violation
Hardin County
Durez Corporation
Ohio EPA Permit No.2IF00002
NPDES Permit No. OH0006769

January 22, 2009

Mr. William H. Bazell
Durez Corporation
13717 State Route 68 South
Kenton, Ohio 43326

Dear Mr. Bazell:

We are in receipt of your discharge monitoring report (DMR) covering the month of November 2008 for the referenced facility. Our review indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are as follows:

Violation Date	Station	Reporting Code	Parameter	Limit Type	Limit	Reported Value
11/11/2008	001	00530	Total Suspended Solids	1D Conc	45	120.
11/11/2008	001	00530	Total Suspended Solids	1D Qty	54	113.55
11/11/2008	001	00550	Oil and Grease, Total	1D Conc	10	15.4
11/11/2008	001	00550	Oil and Grease, Total	1D Qty	12	14.5722

We have reviewed your report addressing the reasons for the above violations and the actions being taken to prevent further occurrences. Hopefully, these actions will prevent any recurrence so that enforcement action will not be required. No additional information is requested at this time.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Mr. William Bazell
