Re: Notice of Violation
Henry County
Hope School
Ohio EPA Permit No. 2PT00019
NPDES Permit No. 0H0125563

November 14, 2008

Mr. Joe Frederick, Superintendent
Hope School
J-169 State Route 65
McClure, Ohio 43534

Dear Mr. Frederick:

We are in receipt of your self-monitoring reports covering the months of November 2003 – September 2008, for the referenced facility. Our review indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are attached.

When entering explanation codes, such as AH, you must enter a note in SWIMWARE justifying the use of the code. Failure to document appropriate codes with descriptive comments may result in a notice of violation.

For permit violations occurring from November 2003 – September 2008, please inform this office in writing within 20 days of receipt of this letter as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions. Please follow up with Ohio EPA Central Office to make sure you have corrected the data that was captured incorrectly in the MOR data base.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements specified in your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Mr. Joe Frederick, Superintendent

You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or US EPA's "facility Pollution Prevention Guide" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact this office.

Sincerely,

Dana Martin-Hayden
Division of Surface Water
