Re: Notice of Violation
Henry County
Rural Opportunities (Pathstone)
Ohio EPA Permit No. 2PS00016
NPDES Permit No. OH0139009

June 30, 2010

Ms. Mikita Jones
Director of State Operations
Rural Opportunities (Pathstone)
2-453 CR V
Liberty Center, Ohio 43532

Dear Ms. Jones:

We are in receipt of your discharge-monitoring reports covering the months of June 2007 – May 2010 for the referenced facility. Our review indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are attached.

When entering explanation codes, such as AH, you must enter a note in eDMR justifying the use of the code. Failure to document appropriate codes with descriptive comments may result in a notice of violation.

For permit violations occurring from June 2007 – May 2010, you have informed this office as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Please follow up with Ohio EPA Central Office to make sure you have corrected any data that was captured incorrectly in the eDMR data base.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements specified in your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Ms. Mikita Jones

You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or US EPA's facility Pollution Prevention Guide" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact this office.

Sincerely,

Dana Martin-Hayden
Division of Surface Water
