Re: Lucas County  
Cousins Waste Control, LLC  
NPDES Permit

September 30, 2009

Mr. Art Peth, Facility Manager  
PSC Cousins Waste Control LLC  
1701 East Matzinger Road  
Toledo, Ohio 43612

Dear Mr. Peth:

On September 22, 2009, we met at your facility regarding the NPDES permit compliance schedule. During the meeting we discussed the proposed modifications to the facility's wastewater treatment system.

The current system consisting of a frac tank followed by an oil/water separator will be replaced by a sedimentation pond. The discharge and sampling points will be relocated.

As was indicated during the meeting, a permit to install (PTI) application will be required for the proposed sedimentation pond. The PTI application must be approved by Ohio EPA prior to installation. Also a permit modification request, for the changes in discharge and sampling locations, should be submitted to our agency as soon as possible.

Tour of the facility indicated no changes in the wastewater sources or treatment facilities.

If you have any questions, please contact me at (419)373-3017 or at [naajy.abdullah@epa.state.oh.us](mailto:naajy.abdullah@epa.state.oh.us).

Sincerely,

Naajy Abdullah, P.E.  
Division of Surface Water
