**RE: 22730 ALLIANCE SEBRING RD., ALLIANCE, MAHONING COUNTY, OHR000171462,
COMPLAINT 7542, NOV**

Dear Mr. Admonius:

On July 24, 2012, this writer, representing Ohio EPA, Division of Materials and Waste Management (DMWM), visited your property located at 22730 Alliance Sebring Road in Alliance, Ohio to conduct a complaint inspection. Angelo Italiano from the Mahoning County District Board of Health also participated in the inspection. The complaint alleged the mismanagement of oil and other materials, as well as the operation of a junkyard at your property.

Rick Watson, Scott Watson and you were present for the inspection.

The purpose of the inspection was to determine your compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The inspection included a walkthrough of your property.

Based on the inspection, Ohio EPA identified the following violation:

1. Waste Evaluation, OAC rule 3745-52-11: Any person who generates a waste must evaluate that waste to determine if it is a hazardous waste in accordance with the criteria set forth in OAC Chapter 3745-51.

You failed to evaluate the contents of seven, 55-gallon drums and two, 5-gallon pails located behind (north of) the building on your property. The containers were in poor condition, as well as a release had occurred from the containers. Please see the attached figure and photograph depicting the location and condition of these containers.

To abate this violation, you must submit waste evaluation information, developed in accordance with OAC rule 3745-52-11, for these wastes. Please identify and submit documentation as how these wastes will be lawfully managed and disposed. In addition, you must clean up and lawfully manage the released waste and contaminated soil. To assist you in this evaluation, please refer to the fact sheet entitled "Identifying Your Hazardous Waste" that was provided to you during the inspection.

Ohio EPA offers the following comments:

2. You may find copies of the hazardous waste rules and other information on Ohio EPA's web page at: <http://www.epa.state.oh.us/dmwm>

3. Ohio EPA has created an electronic news service to provide facilities with quick and timely updates on news and events related to hazardous waste activities in Ohio. For more information, please refer to:

5. Ohio EPA issued an EPA identification number (OHR000171462) to track our inspection activity at your property. If you wish to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, you must complete and submit a Notification of Regulated Waste Activity form (EPA Form 9029). This form is available on Ohio EPA's internet site at <http://epa.ohio.gov/Default.aspx?tabid=3915> or you may contact me for a copy.

You must immediately take the necessary measures to return to compliance with Ohio's environmental laws. **Within 14 days of receipt of this letter, you are requested to provide documentation to this office including the steps taken to abate the violations cited above.** Documentation of steps taken to return to compliance may be submitted via the postal service or electronically to frank.zingales@epa.ohio.gov.

Please be advised that the violations cited above will continue until the violations have been properly abated. Failure to comply with ORC Chapter 3734 and the rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, you are requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,

Frank A. Zingales

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
