RE: COMPLAINT #7192
LEGGETT & PLATT
CESQG
OHD 089 255 301
LORAIN COUNTY, RTC

Ms. Shirley Barnette
7451 Terminal Drive
Lorain, OH 44053

Dear Ms. Barnette:

On February 23, 2009, the Ohio Environmental Protection Agency (Ohio EPA), Division of Hazardous Waste Management, received Leggett & Platt's response to the Agency's January 29, 2009 Notice of Violation letter. The facility submitted: spent aerosol can management information, fluorescent lamp waste evaluation information, photographs of labeled containers, and documentation demonstrating the contents of the eight 55-gallon drums of concern were removed from the facility.

Ohio EPA's review of this documentation reveals that the facility has adequately demonstrated abatement of all violations found during the January 23, 2009 inspection.

General Comments:

1. The facility demonstrated the fluorescent lamps used at the facility are TCLP-compliant and stated they would be disposed in a landfill. While this practice is acceptable, Ohio EPA encourages the facility to recycle spent fluorescent lamps.
2. The facility's compressor condensate (i.e. oily water) is subject to waste evaluation in accordance with OAC rule 3745-52-11 if not managed as used oil.

Should you have any question, please feel free to call me at (330) 963-1278.

Sincerely,

Wade Balser
District Representative
Division of Hazardous Waste Management
