Dear Mr. Leitch:

On July 27, 2011, Ohio EPA conducted an inspection of the Cork Elementary project located at 341 SR 534, Harpersfield Township, Ashtabula County. Ohio EPA records indicate that the site is covered by the General National Pollutant Discharge Elimination System (NPDES) Permit for Storm Water Associated with Construction Activity (General Storm Water Permit), permit No. 3GC04767\*AG. The inspection was conducted as a follow-up to an inspection conducted on June 13, 2011, and documented the following:

- **All issues noted during the previous inspection have been corrected.**
  - Please be sure to maintain all Best Management Practices (BMP's) for the remainder of construction activities.
  
- **No new issues were visible.**
  - Please remain compliant with the NPDES Permit for the remainder of construction activities.

Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1128.

Sincerely,

Tim McParland  
Assistant to the District Engineer  
Division of Surface Water
