Dear Mr. Dayton:

On August 2, 2011, Ohio EPA conducted an inspection of the Choice Child Care and Preschool project located at 150 Water Tower Drive, Village of Madison, Lake County, Ohio. Ohio EPA records indicate that the site is covered by the General National Pollutant Discharge Elimination System (NPDES) Permit for Storm Water Associated with Construction Activity (General Storm Water Permit), permit No. 3GC05412\*AG. The inspection was conducted as a follow up to an inspection conducted on June 23, 2011, and documented the following:

- **The issues documented during the previous inspection have been corrected.**
  - Please be sure to maintain all Best Management Practices (BMP's) for the remainder of the construction process.
- **The site appears to be near completion.**
  - Once the site is complete, and all disturbed areas have been stabilized with vegetation, you need to submit a Notice of Termination (NOT) within forty five (45) days of reaching final stabilization.

Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1128.

Sincerely,

Tim McParland  
Assistant to the District Engineer  
Division of Surface Water
