RE: LAKE COUNTY
GRAND RIVER BASIN
CITY OF PAINESVILLE
PAINESVILLE KIWANIS RECREATION PARK

Mr. Michael Hanion
58 Jefferson Street
Painesville, OH 44077

Dear Mr. Hanion:

On June 24, 2010, Ohio EPA conducted an inspection of the Painesville Kiwanis Recreation Park project located at 301 Latimore Street, City of Painesville, Lake County (site). Ohio EPA records indicate that the site is covered by the General National Pollutant Discharge Elimination System (NPDES) Permit for Storm Water Associated with Construction Activity (General Storm Water Permit), permit No. 3GC04848*AG. The inspection documented the following:

- A large topsoil pile was observed to the north of the football field. Aaron Milliken of Vasco Asphalt stated that the parks department requested to topsoil to be stored there for future use by the department. Mr. Milliken expects to add more topsoil to the pile over the next week or two and stated he would have it seeded and mulched when it was no longer in use. Stabilize all areas that will remain idle for 21 days or longer or that are at final grade.
- Grading activities were taking place on the football field within the limits of the track.
- No storm sewer inlets were observed on-site.
- Silt fence was installed correctly and observed to be in working condition.

Please provide a written response detailing how the above deficiencies will be addressed to Ohio EPA within seven days of receiving this letter. The above deficiencies must be addressed within 14 days of receiving this letter. Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1128.

Sincerely,

Sean Green
Assistant to the District Engineer
Division of Surface Water
