RE: PORTAGE COUNTY
CHARLESTOWN TOWNSHIP
ROUTE 80 ENGINEER SUSTAINMENT AREA
CONSTRUCTION STORM WATER

Mr. Tim Morgan
Ohio Army National Guard- Ravenna TLS
1438 State Route 534 SW
Newton Falls, OH 44444

Dear Mr. Morgan:

On June 30, 2011, I, along with Eric Long of the Portage Soil & Water Conservation District (SWCD), performed an inspection at the above-referenced site to determine compliance with the Ohio EPA General Storm Water National Pollutant Discharge Elimination System (NPDES) Permit for Construction Activities #3GC04453*AG. Our records indicate that Ohio Army National Guard-Ravenna TLS was granted coverage under the NPDES permit on April 30, 2009.

During my inspection, I did not document any deficiencies. However, please continue to monitor the site to ensure that it reaches a 70% vegetative cover. If you plan to conduct future construction activities at the site, please notify Portage SWCD before commencing earth-moving activities. Otherwise, you may submit a Notice of Termination (NOT) to the Ohio EPA when you determine that the site has achieved an appropriate level of vegetative cover. The NOT form and instructions are available on our website at www.epa.ohio.gov/dsw/storm/stormform.aspx.

Finally, please fax a copy of your most recent storm water inspection report to my attention at (330) 487-0769 or via e-mail at michelle.hummel@epa.state.oh.us. The NPDES permit requires you to inspect all storm water best management practices once every 7 days and within 24 hours of a 0.5-inch or greater rainfall. The results of these inspections must be documented as indicated in Part III.G.2.i of the NPDES permit.

If you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1128.

Sincerely,

Michelle Hummel
Assistant to the District Engineer
Division of Surface Water
