RE: STARK COUNTY
CITY OF LOUISVILLE
NEW LOUISVILLE ELEMENTARY SCHOOL
CONSTRUCTION STORM WATER

David Redd
Louisville City School District
504 E Main Street
Louisville, OH 44641

Dear Mr. Redd:

On August 2, 2011, I, along with Julie Berbari of the Stark Soil & Water Conservation District (SWCD), performed a follow-up inspection at the above-referenced site to determine compliance with the Ohio EPA General Storm Water National Pollutant Discharge Elimination System (NPDES) Permit for Construction Activities #3GC04825*AG. Our records indicate that the Louisville City School District was granted coverage under the NPDES permit on March 4, 2010.

During my inspection, I documented the following deficiencies:

1. Concrete washout is still visible on the ground. Please make sure that the concrete washout pit is clearly marked and that all concrete workers are instructed to use this area when cleaning out their trucks.
2. Construction debris and other waste materials are still present in the construction area. Please dispose of construction debris in an appropriately-marked dumpster with a cover to prevent trash from leaving the site.

Please provide me with a letter of response indicating the actions you will take to address the deficiencies noted above. Your response, along with any amendments to the Storm Water Pollution Prevention Plan (SWP3), must be submitted to the Ohio EPA **no later than August 18, 2011**. If corrective actions are not completed by this date, please include a schedule that outlines when action will be taken. It is Ohio EPA's expectation that all of these deficiencies will be addressed within 10 days of receipt of this letter.

Finally, please fax a copy of your most recent storm water inspection report to my attention at (330) 487-0769 or via e-mail at michelle.hummel@epa.state.oh.us. The NPDES permit requires you to inspect all storm water best management practices once every 7 days and within 24 hours of a 0.5-inch or greater rainfall. The results of these inspections must be documented as indicated in Part III.G.2.i of the NPDES permit.

DAVID REDD
