RE: SUMMIT COUNTY
CUYAHOGA RIVER BASIN
CITY OF STOW
PLAZA OF FISHCREEK

Mr. Brad Ruth
BKR Development Group LLC
4644 Graford Lane
Stow, Ohio 44224

Dear Mr. Ruth:

On August 31, 2009 this office performed a compliance inspection of storm water best management practices (BMPs) at the above referenced site. Our records indicate that this site is covered by Ohio EPA General Storm Water General Permit for Construction Activities # 3GC03758*AG.

The inspection revealed that building, parking and entrance construction at this site is complete. Landscaping and stabilization of berm areas with grass have been completed.

As such, you are eligible to terminate the NPDES Permit once all of the following criteria are met:

- 1) All temporary erosion and sediment controls are removed and disposed.
- 2) All trapped sediments have been permanently stabilized to prevent further erosion.
- 3) All soil disturbing activities on this site have been completed.
- 4) A uniform, perennial vegetative cover (or other permanent stabilization technique) has been established to a 70% growth density on all disturbed soils.

This permit may be terminated by filing the enclosed Notice of Termination (NOT).

Although the Notice of Intent (NOI) for this project indicated that the site address was 3763 Fishcreek Road, the inspected site address was noted to be 3655 Fishcreek Road. If this is not the project site covered by the Ohio EPA Permit, please inform this office.

Should you have any questions, please contact me at (330) 963-1117.

Sincerely,

Kelvin F. Rogers
