RE: TRUMBULL COUNTY  
MUD CREEK BASIN  
CITY OF LORDSTOWN  
BLUFFS AT BROOK HOLLOW &  
BLUFFS AT BROOK HOLLOW 2

Mr. Greg Stanic  
7392 Eagle Trace Drive  
Boardman, Ohio 44512

Mr. Greg Stanic  
3620 Stutz Drive  
Canfield, Ohio 44406

Dear Mr. Stanic:

Trumbull County Soil and Water Conservation District (Trumbull SWCD) received a complaint alleging that a property located adjacent to the Bluffs at Brook Hollow and Bluffs at Brook Hollow 2, located in the City of Lordstown, Trumbull County (sites) was flooding due to the fill placement associated with the sites. Ohio EPA records indicate that the sites are covered by General National Pollutant Discharge Elimination System Permit for Storm Water Associated with Construction Activity (General Storm Water Permit), permit Nos. 3GC00672\*AG and 3GC04044\*AG, respectively.

Trumbull SWCD investigated the complaint and was unable to locate any post-construction storm water best management practices (BMP), which are utilized to protect a receiving stream's physical, chemical, and biological characteristics and to ensure that stream functions are maintained.

Part III.C.2.b of the General Storm Water Permit requires you to submit copies of the sites SWP3s within 10 days upon written request. **This correspondence serves to formally notify you to submit copies of the SWP3s for the sites to Ohio EPA for review.** In addition, all supporting information related to the post-construction storm water management requirements established within Part III.G.2 of the General Storm Water Permit must be submitted. Such supporting information should include detail drawings, maintenance plans, water quality volume calculations, etc. The SWP3s and information will be utilized to determine the sites compliance with the General Storm Water Permit.

Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1118.

Sincerely,

Chris Moody  
Environmental Specialist  
Division of Surface Water
