RE: TRUMBULL COUNTY  
MAHONING RIVER BASIN  
CITY OF WARREN  
MC GUFFEY K-8 SCHOOL

Ms. Kathryn Hellweg  
261 Monroe Ave. NW  
Warren, OH 44483

Dear Ms. Hellweg:

On July 15, 2010, Ohio EPA conducted an inspection of the McGuffey K-8 School project, located at 3465 Tod Ave. NW, City of Warren, Trumbull County (site). Ohio EPA records indicate that the site is covered by the General National Pollutant Discharge Elimination System (NPDES) Permit for Storm Water Associated with Construction Activity (General Storm Water Permit), permit No. 3GC04206\*AG. The inspection revealed that the building construction has been completed. All perimeter areas appeared stabilized or ready to be stabilized. You are eligible to terminate the NPDES Permit once all of the following criteria are met:

1. All temporary erosion and sediment controls are removed and disposed.
2. All trapped sediments have been permanently stabilized to prevent further erosion.
3. All soil disturbing activities on this site have been completed.
4. A uniform, perennial vegetative cover (or other permanent stabilization technique) has been established to a 70% growth density on all disturbed soils.

This permit may be terminated by filing a Notice of Termination (NOT) which can be obtained from:

[http://www.epa.ohio.gov/portals/35/documents/NOT\\_app\\_fis.pdf](http://www.epa.ohio.gov/portals/35/documents/NOT_app_fis.pdf)

If you have already filed an NOT, please disregard this letter. Should you have any questions regarding this matter, please contact me at your earliest convenience at (330) 963-1128.

Sincerely,

Sean Green  
Assistant to the District Engineer  
Division of Surface Water
