Mr. Dave Rabatin
Auto Works
7500 County Road 201
Millersburg, Ohio 44654

Dear Mr. Rabatin:

On October 6, 2009 this office performed a compliance inspection of storm water best management practices (BMPs) at the above referenced site. Our records indicate that this site is covered by Ohio EPA General Storm Water Permit for Construction Activities # 3GC04111*AG.

The inspection revealed that construction at this site is complete. Landscaping is in place and all areas around the building, including the sediment/water quality basin, appear to be stabilized with grass/vegetation. As such, you are eligible to terminate the NPDES Permit once all of the following criteria are met:

- 1) All temporary erosion and sediment controls are removed and disposed.
- 2) All trapped sediments have been permanently stabilized to prevent further erosion.
- 3) All soil disturbing activities on this site have been completed.
- 4) A uniform, perennial vegetative cover (or other permanent stabilization technique) has been established to a 70% growth density on all disturbed soils.

This permit may be terminated by filing the enclosed Notice of Termination (NOT).

Should you have any questions, please contact me at (330) 963-1117.

Sincerely,

Kelvin F. Rogers
Environmental Specialist
Division of Surface Water
