Re: Fulton County
East Fayette Substation
Construction Storm Water
Permit No. 2GC0255*AG

June 15, 2011

Mr. Dave Eshelman
First Energy/Toledo Edison
76 South Main Street
Akron, Ohio 44308

Dear Mr. Eshelman:

On October 5, 2009, First Energy/Toledo Edison received coverage under the Ohio EPA General Permit for Storm Water Associated with Construction Activity (CGP) for the East Fayette substation site. This CGP is still active and you are named as a contact for this site.

On June 6, 2011, I performed an inspection of this site, located on the southeast corner of US Rt. 20 and CR 23, east of the Village of Fayette, Fulton County, Ohio. The purpose of this visit was to evaluate compliance of the site with the CGP. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of this inspection, it appears that coverage for this site is eligible to be terminated.

Construction activities have been completed with final stabilization achieved on all portions of this site. The CGP requires that a Notice of Termination (NOT) must be filed to relieve the applicant of the obligation to comply with the terms and conditions of this general permit including regular inspections of the site. I am enclosing an NOT form and instructions to terminate this permit.

Please submit this form to:

Ohio Environmental Protection Agency
General Permit Program
P. O. Box 1049
Columbus, Ohio 43616-1049

If you have any questions, please contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.state.oh.us.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
