Re: Fulton County
House & Pond Construction
Construction
Storm Water

July 22, 2010

Mr. Steven M. Silveous
6079 County Road S
Metamora, Ohio 43540

Dear Mr. Silveous:

On June 28, 2010, Sarah Clement and I inspected the House & Pond Construction at 6079 County Road S, Amboy Township, in Fulton County. The purpose of our visit was to evaluate compliance of the site with your National Pollutant Discharge Elimination System (NPDES) permit for storm water discharge associated with construction activity, Facility ID No. 2GC02424*AG. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The Ohio EPA has no record of other permittees on this site.

As a result of this inspection, you may be eligible to terminate your NPDES permit for this site. It appears that construction activities at the site are completed. Accordingly, a Notice of Termination (NOT) must be filed to relieve you of the obligation to comply with this general permit. A NOT may be filed if one or more of the following conditions have been met:

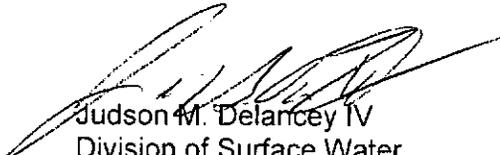

1. Final stabilization has been achieved on all portions of the site for which the permittee is responsible. Final stabilization means that either:
 - a. All soil disturbing activities at the site are complete and a uniform perennial vegetative cover of at least 70% density has been established over the entire site. All temporary erosion and sediment control measures have been removed, properly disposed of, and all trapped sediment is permanently stabilized.
 - b. For construction projects on land used for agricultural purposes, final stabilization may be accomplished by returning the disturbed land to its pre-construction agricultural use. If not returned to its pre-construction agricultural use, the land must meet the final stabilization criteria in (a.) above.
 - c. Another operator(s) has assumed control over all areas of the site that have not been fully stabilized.

It appears that you are eligible to file a NOT which can be found on our website:
<http://epa.ohio.gov/dsw/storm/stormform.aspx>. NOTs must be submitted to Ohio EPA's Central Office within 45 days of when the above criteria are met.

Mr. Steven M. Silveous
