Re: Fulton County
Nebraska Industries Corporation
Industrial Waste

July 9, 2009

Mr. Ray Cox, Principle
Nebraska Industries Corporation
447 East Walnut Street
Wauseon, Ohio 43567

Dear Mr. Cox:

This letter is in regards to our recent complaint investigation. No one was available to meet with us on June 5, 2009, therefore a follow-up inspection was conducted on June 9, 2009. You, Mr. Chris Cox, and Mr. Mike Hempil were present from Nebraska Industries. Mr. Dave Pike was present from the City of Wauseon and Ms. Mackenzie Coughlan and I were present from Ohio EPA. The inspection included a tour of the production facility as well as a walk around the property bordering Turkeyfoot Creek. No evidence of pollution entering Waters of the State was found during the inspection. However, no samples were taken to confirm this observation.

Also during the inspection, storm water regulations were discussed. Our database shows that you have obtained a general industrial storm water permit, 2GR01597*DG, and it was issued to you on April 10, 2009. Be sure to read the permit carefully as it requires you to develop and follow a storm water management plan for your facility. If you have any questions regarding your industrial general storm water permit, contact Ms. Pat Tebbe at (419) 373-3016.

If there are any other questions, please contact me at (419) 373-3022.

Sincerely,

Justin A. Williams
Division of Surface Water
