Re: Mercer County  
ODOT Mer Sr 29 Buckeye St. to Meyer Rd  
Construction Storm Water

October 23, 2009

Mr. David Ley  
ODOT District 7  
1001 St. Marys Avenue  
PO Box 969  
Sydney, Ohio 45365

Dear Mr. Ley:

On September 24, 2009, I was conducting inspections of construction sites in Mercer County in order to evaluate construction sites for compliance with the National Pollutant Discharge Elimination System (NPDES) Permit for storm water associated with construction activity. Inspections are conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

The Ohio Department of Transportation holds a construction general permit or (CGP), Facility ID no. 2GC02327\*AG for SR 29 from Meyer Rd to Buckeye St. On this day I observed this construction site in the vicinity of SR 29 and Meyer Rd. My observations include the following:

The site appeared to be at grade but had not yet been stabilized.

Catch basins in the area of construction were not protected. Some catch basins had silt fence around them that was sagging or had not been entrenched. There were numerous catch basins both behind the curb and in the street that did not have protection. *This is a violation of Part III.G.w.3.iv. of the CGP.*

Please submit written notification of what corrective measures you have taken to correct the above violations to my attention at this office within 10 days of the date on this letter.

If you have any questions, you may contact me at (419) 373-3016 or by e-mail at [patricia.tebbe@epa.state.oh.us](mailto:patricia.tebbe@epa.state.oh.us).

Sincerely,

Patricia A. Tebbe, P.E.  
Division of Surface Water
