Re: Paulding County  
Payne Interceptor Sewer  
Construction Storm Water  
Permit No. 2GC02328\*AG

August 30, 2011

Mr. Winston Gross  
Village of Payne  
P.O. Box 347  
Payne Ohio 45880

Dear Mr. Gross:

On April 9, 2009, the Village of Payne received coverage under the Ohio EPA General Permit for Storm Water Associated with Construction Activity (CGP) for the Payne Interceptor Sewer. This CGP is still considered active.

On August 23, 2011, I performed an inspection of this project, located along State Route 500, Village of Payne, Paulding County. The purpose of this visit was to evaluate compliance of the site with the CGP. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of this inspection, it appears that coverage for this site is eligible to be terminated.

Construction activities have been completed with final stabilization achieved on all portions of this site. The CGP requires that a Notice of Termination (NOT) be filed to relieve the applicant of the obligation to comply with the terms and conditions of this general permit including regular inspections of the site. I am enclosing an NOT form and instructions to terminate this permit. Please submit this form to:

Ohio Environmental Protection Agency  
General Permit Program  
P.O. Box 1049  
Columbus, Ohio 43616-1049

If you have any questions, please contact me at (419) 373-3016 or e-mail at:
