Re: Van Wert County
Shannon Street Reconstruction
Construction
Storm Water

September 16, 2010

Mr. Jay Fleming
City of Van Wert
515 East Main Street
Van Wert, Ohio 45891

Dear Mr. Fleming:

On July 28, 2010 I was conducting storm water construction inspections in Van Wert County including the proposed Shannon Street reconstruction project located on Shannon Street from West Ervin Road to Main Street in the City of Van Wert. The purpose of the inspection was to evaluate compliance of the site with your National Pollutant Discharge Elimination System (NPDES) permit for storm water discharge associated with construction activity, Facility ID No 2GC02632*AG. The inspection was conducted under the provision of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

At the time of the inspection, it appeared that no construction activities had begun at the Shannon Street reconstruction project. When construction does begin, it is important to keep in mind the permit requirements for storm water management during construction and post construction. Please refer to Ohio's *Rainwater and Land Development Manual* (ODNR) for proper installation and maintenance of erosion and sediment control practices.

If there are any questions, please contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.state.oh.us.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
