Dear Ms. Heimlich:

On July 14, 2011, I performed an inspection of the Lakota West Elementary School project located at 218 East Lightner Street in the Village of Bradner, Wood County. The purpose of this visit was to evaluate compliance of the site with the National Pollutant Discharge Elimination System (NPDES) permit for storm water discharges associated with construction activity (Construction General Permit or CGP). The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

At the time of the inspection, there was no active construction. When construction does begin, please be aware that all terms and conditions of the CGP will apply including maintaining sediment and erosion controls and routine inspections.

If you have any questions, please contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.state.oh.us

Sincerely,

Patricia A. Tebbe, P.E.
