Dear Mr. Romp:

On January 25, 2007, Bexfield LLC received coverage under the Ohio EPA General Permit for Storm Water Associated with Construction Activity (CGP) for a new building for Bexfield LLC at 7212 Avenue Rd. This CGP is still active and you are named as a contact for this site.

On June 21, 2011, I performed an inspection of this facility. The purpose of this visit was to evaluate compliance of the site with the CGP. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of this inspection, it appears that coverage for this site is eligible to be terminated.

At the time of the inspection, it appeared that no construction activities have ever been done on the New Building for Bexfield LLC. If this development is no longer viable or planned, it is recommended that you terminate coverage of the CGP for this site.

The CGP requires that a Notice of Termination (NOT) must be filed to relieve the applicant of the obligation to comply with the terms and conditions of this general permit including regular inspections of the site. I am enclosing an NOT form and instructions to terminate this permit.

Please submit this form to:
