Mr. William Canfield  
Village of Hayesville  
5 South Mechanic Street  
PO Box 246  
Hayesville, Ohio 44838

**Re: CCR Violations**

Dear Mr. Canfield:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2007 Consumer Confidence Report (CCR) for the Village of Hayesville on June 19, 2008. The CCR was reviewed for the required content. Based on our review, the Village of Hayesville water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. Barium, Bromoform, Chlorodibromomethane, and Chloroform were all detected during the 2005 monitoring for these contaminants and they must be reported in the Table. Samples have not been collected for these contaminants since 2005.

Nitrate was not detected during the 2007 monitoring period and it should not be included in the Table.

The Total Chlorine residual levels must be reported in the table. (These levels can be found on the Total Chlorine Residual Quarterly Operating Reports, form 5114.)

2. Required information that was required as a result of an Action Level Exceedance for Lead was not included in the report.
3. Required health language due to an exceedance of Lead was not included in the report.

Mr. William Canfield

Page Two

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template instruction guide are accessible on our website at [www.epa.state.oh.us/ddagw](http://www.epa.state.oh.us/ddagw).

If you have any questions, please contact me at 419-373-3101.

Sincerely,

Ben Smith  
Environmental Specialist 2
